

Challenge of the Week

Witnessing/Evangelism

Consider where you spend most of your time, is it in circles where you are surrounded by other Christians? Or do you have places where you regularly engage with others who do not know Christ. Friendship is foundational to sharing faith. This is the place where trust is built to ask the hard questions and navigate the difficult conversations about faith. Consider joining a group where you might invest your time on a regular basis to connect with others who do not know Christ.
