

Update on Parking & Entrances May 2024

Please Note: We have **shut off the entry door from the West** to the fellowship hall area. Parking will still be available on the West side but you will have to walk around the construction fence to use the East door or we will also have the door on the northwest corner of the church at the front of the sanctuary as an entrance/exit if you want to enter/exit there.

- Please be careful of crossing traffic in the parking lot and drive a little slower than normal.
- Please try to keep parking in the East lot for those that have difficulties walking and parents with small children.
- Remember we do have parking available along University St. and we are able to park at Pella High and along 12th Street if the parking lot is full.
